

# KSANA BONARDA: Bonarda Quality Leader

- Bonarda is coming on strong in the U.S. as the second hot, unique Argentine red varietal. Ksana winemakers the Durigutti brothers are widely considered to be the top winemakers for high quality Argentine Bonarda.
- 92 points for the Ksana Bonarda '08 from Wilfred Wong.
- Wine Spectator rated the '07 88 points, describing it as: "Ripe and round, with inviting plum, chocolate and spice notes allied to a fleshy, mouthfilling frame."

Ksana is "a new winery with excellent results" (Wine Spectator). Ksana refers to the Buddhist idea of infinity in an instant. Likewise, we believe at the moment of tasting a wine, one experiences its vineyard's history and winemaking process. The correct combination of these is what will make a wine last in your memory forever. The Ksana wines are unfiltered; malolactic fermentation occurs in the oak; and indigenous yeasts are used to express the terroir. The winemakers are the Durigutti brothers and the vineyard manager is Marcela Gonzalez Riesgo.
