Real winemakers get their hands dirty. Hands black with wine. That's what Manos Negras is all about. Rolling up our sleeves and getting our hands dirty. That's how we make these hand crafted wines.

Carmenere has quickly developed into Chile's signature red wine grape. It disappeared in European vineyards in the mid-1800s and reappeared in Chile more than 100 years later. Needing a long growing season to reach ripeness, the cool moderate autumns in Colchagua allow Carmenere to develop its signature dark, rich fruit flavors and full, yet soft texture.
